STANDING UP FOR SPELTHORNE

Infrastructure – Our local infrastructure is not getting the attention it needs and is not up to standard. I will push for much needed investment in our roads and schools.

Eco Park – This Conservative white-elephant has been a complete waste of money, and Surrey are not being transparent or accountable. I will fight to prevent further environmental damage.

Services – Surrey is responsible for many key local services. I will work hard to protect and improve health and social care, libraries, adult education and youth services.

Sustainability – We have to stop pretending Climate Change is someone else's problem. Surrey and Spelthorne must work together towards net zero carbon before 2030 and protect our precious Green Belt.
